R. IRWIN SHOOTS WILLIAM DOYLE

ASSAILANT CLAIMS VICTIM INSULTED HIS WIFE THROUGH TELEPHONE.

INFLICTS BAD SCALP WOUND

DOYLE DENIES CHARGE; SAYS IRWIN WANTED TO FIGHT A DUEL.

IRWIN SURRENDERS HIMSELF

Issue Conflicting Statements Regarding Both Doyle's Attitude Toward Mrs. Irwin and Circumstances Leading to Shooting—Not Serious.

"In an altercation through the telephone last Thursday night, Mr. Doyle so insulted my wife that she dropped the receiver and told me of the occurrence. I went to the telephone and said that my name was Irwin, at the same time demanding to know who had insulted my wife.

"The man at the other end of the telephone, whom I later discovered to be Mr. Doyle, said that he didn't care a —— who I was, that my wife had repeatedly "butted in," etc.

"This morning I went to Mr. Doyle's office and demanded an apology for his insult to my wife. He did not deny having insulted her, but said that he had no apology to make. He said that he would whip me and started toward me, I retreating. He followed me to Dr. Grover's office, and I thought he was about to assault me, so I shot him."—Richard Irwin's statement of the circumstances leading to his shooting W. E. Doyle in the latter's office yesterday morning.

"I did not insult Mrs. Irwin—I merely told her to get off the line, having been frequently interrupted during previous telephone conversations. When Mr. Irwin came to my office yesterday morning, he wanted to fight a duel. He said he would fight at two or 10 paces, as I pleased.

"I told him I had no apology to offer, because I had never insulted his wife. I said that I did not want to fight a duel, and that if I wanted to, I could easily whip him, but that I would not do so because of his age and his crippled physical condition. I ordered him out of the office and was standing in my own doorway when Irwin shot me from the doorway of Dr. Grover's office, opposite."—W. E. Doyle's statement.

Claiming that his victim insulted his wife, Mrs. Louisa V. Irwin, during an altercation over the use of a two-party telephone, Thursday evening, Richard Irwin, a pioneer resident and mining man of this city, yesterday morning shot and painfully injured W. E. Doyle, former deputy district clerk and well known in business circles, in Doyle's office, 412 Colorado building.

Irwin fired two shots from a 38-caliber Colt's revolver. The first bullet lodged in a wall of the office, the second penetrating Doyle's forehead just above the right eye. The missile, which was old and comparatively soft, deflected at the frontal bone and passed between the scalp and the skull, coming out near the top of the head. The bullet passed through Doyle's stiff hat and struck a wall, bounding off to the floor. Doyle, who is not seriously injured, was attended by Drs. J. T. Muir and J. V. Schofield.

Irwin Surrenders.

Ten minutes after the shooting Irwin surrendered himself to Clerk Charles Fey at police headquarters. He handed his revolver to Fey and said:

"Someone tried to do me and I did him."

Chief of Police Alex. Adams filed a complaint in Justice W. N. Ruby's court, charging the defendant with assault with a deadly weapon with intent to kill. Judge Ruby issued a warrant and Irwin was released on bond to appear for hearing Saturday afternoon at 2:30 o'clock. Bail, which was fixed at $2,500, was signed by the defendant's wife and by George Bernard and William Bainbridge. H. C. Cassidy was retained as attorney for Irwin.

Doyle, who is interested with T. A. Hanks of Palmer Lake in the ice business in that town, was talking through the telephone with his partner, Thursday evening, when Mrs. Irwin broke in on the line in an attempt to get the central telephone station. Doyle lives at 426 East Willamette avenue, while Irwin resides at 915 North Wahsatch avenue, the two houses being connected on the same two-party telephone. When Mrs. Irwin interrupted the conversation, Doyle told her that the line was in use, and some sharp words, it is said, passed between the two.

Facts About the Shooting.

Doyle has been in the city only at intermittent periods since Thursday night, and Irwin did not see him until yesterday morning, when he walked into Doyle's office. Doyle shares a suite of two rooms in the Colorado building with Clyde L. Starrett, Senator H. H. Seldomridge, Starrett and Doyle together with one or two others, were in consultation in the private office, when Irwin entered the outer room. Doyle excused himself and met Irwin in the entrance room.

Irwin accused Doyle of insulting Mrs. Irwin, and demanded an apology. Doyle emphatically denied having insulted Irwin's wife and a heated controversy followed. Irwin is said to have threatened Doyle, and the latter ordered him out of his office. Doyle said that he would whip Irwin but for the latter's advanced age and feeble physical condition. Irwin, he claimed, took advantage of his own crippled condition to abuse him (Doyle), knowing that his age and condition would protect him.

Levene an Eyewitness.

Harry A. Levene, [illegible], an eyewitness to the shooting, Irwin, backing across the hall from Doyle's room, shot one bullet in a downward direction, the other missile striking Doyle in the forehead. Levene, according to Levene, stood in his own doorway.

On hearing the two shots fired, Doyle's friends rushed out from the adjoining room, finding Doyle prostrate on the floor. Starrett ran down the hall in pursuit of Irwin, who had already disappeared. Starrett returned and aided the others in lifting the wounded man to a chair. Dr. J. T. Muir, who has offices in the same building, was called in attendance and dressed the wound.

A call was sent in for the ambulance and for the police, but Irwin meantime had given himself up at police headquarters. On finding that Doyle was not seriously injured, his friends removed him to his home, sending the ambulance back without him.

Both Are Well Known.

Doyle was for six years deputy district clerk during the incumbency of the Democratic judges of the Fourth judicial district. He was formerly

RESERVES ARE FOR USE

CREATED AS ECONOMIC MEASURE, SAYS PINCHOT.

The Miner, the Ranchman and the Small Men Have Equal Chances With Large Interests.

WASHINGTON, March 5.—Just what is intended to be done in the administration of the national forests which includes the 17,050,000 acres recently added to this domain, was set forth today by Gifford Pinchot, chief forester. The statement is an answer to criticism made in congress during the debate regarding forest reserves indulged in during the latter part of the session. It supplements the president's statement of yesterday regarding his order creating the new reserves.

The statement follows:

"National forests are created with the main object of using all their resources in the wisest way. Everything is for use, the timber, the range, the water, the land. Only those lands chiefly valuable for the production of timber or the protection of the waterflow are included in national forests. Little patches of agricultural land, small mountain meadows and every inconsiderable area of open grazing land must necessarily fall within their boundaries. All such tracts where cultivation is possible are being classified and are passing to private ownership through the act of June 11, 1906, which is an extension of the homestead law, to the national forests.

Benefits the Miner.

"The miner is better off in a national forest than on the unreserved public domain. The mineral laws apply precisely the same way. The prospector can explore and locate his claims without the slightest restraint.

"All timber and wood in the national forests is for use, and for prompt use. It is sold to the small man and to the big man. Everybody who needs timber to establish his home gets it free of charge when he asks for it. In the sale of timber there is no chance for monopoly, for the secretary of agriculture can sell as much or as little as he pleases, and for whatever price he deems fair for the best interests of all the people. The government gets a fair return for its timber, whereas before, under the timber and stone law, it practically gave it away and in such a manner that it was monopolized in vast tracts by corporation interests, and after it was cut off, the land was burned over and became nonproductive waste.

Range for Livestock.

"The range is used for the grazing of livestock. On these national forests, created after March 1, 1907, there will be no interference with the grazing industry. Nor will any grazing fee be charged during this season on those national forests or additions thereto, created after March 1, 1907. All stock men who have regularly used the range will continue to do so without any interference from the forest service.

"The land within national forests is freely open to use as sites for hotels, stores, mills, residences and all other legitimate purposes. The greatest possible use of the land is desired. All kinds of business enterprises are not only permitted, but are decidedly welcomed."

WILL LIVE IN AMERICA

Duchess of Marlborough Takes Suite in New York Hotel.

NEW YORK, March 5.—A. W. Eager, manager of the Hotel Martha Washington, announced tonight that a suite of rooms had been engaged by the Duchess of Marlborough, formerly Miss Consuelo Vanderbilt, and that she would occupy them on April 15. Mr. Eager said that negotiations had been opened with relatives of the duchess some time ago, when she determined to live in this country, and that a suite of ten rooms had been assigned to her on the seventh floor.

Shortly after the announcement was made that the Marlboroughs had decided upon a separation it was rumored that the duchess would return to America to make her home.

PROTECTS SPORTS

LAW TO CONDEMN BEDS OF FISHING STREAMS.

AN IMPOSITION ON FARMERS

INVASION OF PRIVATE RIGHTS, SAYS DOLPH.

BILL PASSES SECOND READING

It Will Wipe Out Republican Party if Passed, Says Representative Stewart—Antitrust Bill Killed and Report of Stratton Committee Delayed.

Special to The Gazette.

DENVER, March 5.—The bill to provide that the state shall condemn the beds of all the fishing streams of the state provoked considerable argument in the house today. Its author, Mr. Lehritter, declared it was needed because farmers warned fishermen off their lands and the state spent thousands of dollars every year for raising trout to stock these streams.

Mr. Dolph opposed the bill as being an invasion, in part, of private rights. The owners of the land were entitled to the stream beds, as they had settled where they did because of that very fact. He knew there were 44 dead game sports in the house prepared to vote for the bill. Why not, he asked, condemn the lakes of the state for the benefit of the duck hunters?

Nuisance to Farmers.

Mr. Stewart declared there was no call for the bill, as it was designed only to furnish pleasure grounds for fishermen. Years ago, he said, the legislature established a cycle path from Denver to Palmer lake, eventually to run on to Colorado Springs. A portion of the path was built, proving a nuisance to owners of land along it that they swarmed along its borders with shotguns and rifles to keep those who used it from committing depredations in their orchards. This bill would prove as great a nuisance. "Pass it," he declared, "and it will wipe the Republican majority off the face of the earth."

The bill passed second reading in spite of all opposition, receiving a generous majority.

The Bryan banking bill was then taken up, but consideration was not completed when the committee rose and the house adjourned.

Take Up Appropriations.

The general appropriations bill has been made a special order for 2 o'clock Thursday afternoon. Mr. Watson, chairman of the appropriations committee, said that the action had been taken so as to get the bill out of the way before the coming of the last days of the session. Twice special sessions have been necessary because of delay in getting the general appropriations bill through, and nearly every assembly has been muddled in its last days by quarrels over the bill. If that can be avoided this session something will be gained.

The senate is now in the midst of the consideration of the long insurance bill that was drafted by the insurance department of the state. Its main provision is to take the department from the [illegible] and place it under the direct control of the governor. An amendment introduced today prohibits the insurance of children under the age of 15. This has been the law heretofore, but members of the senate feared that, unless the provision was made plain, companies dealing in that kind of insurance might find a way to invade the state. The senate went over 32 sections today, and then the committee rose, to resume its work tomorrow.

Delay Stratton Report.

The Hardwell committee on bank investigation did not make its report today as expected, and may not now do so before Friday. Neither did the report from the Stratton committee come in. Both of these are overdue, giving rise to the belief that they are to be part of a policy of magnificent delay.

The house put in most of its day on third readings. The first to be taken up was S. B. 88, killed the day before. It provides that the members of the boards of control of state institutions shall draw neither salary nor mileage, and be paid only the actual expense incurred in attending meetings. It was called up on a motion to reconsider and was finally passed. The argument was that it was one of the things promised in the Republican platform. The other bill passed on third reading was to create a judicial district in the lower Arkansas valley.

The house committee on corporations tonight had hearings on the telephone and Pullman bills, both usually placed in the category of "graft" measures. Those interested both for and against the bills were present. Neither is likely to be passed.

The antitrust bill appears also to be dead. The house committee on mercantile and manufacturing affairs has been holding meetings for the past week at which arguments have been made for and against it. The committee has about come to the conclusion that the bill, as drafted, is a dangerous one to adopt. With less than four weeks of the session left it will hardly reach consideration, even if reported favorably.

BIG GRIST IN CONGRESS

Handled Many Thousand More Bills Than Predecessor.

WASHINGTON, March 5.—During the Fifty-ninth congress, 34,879 bills and joint resolutions were introduced in both the senate and house. About a fourth more than in the Fifty-eighth congress. There were 25,154 house bills and of those 6,840 became laws. About the same proportion of senate bills received approval.

SECOND WIFE SEEKS DIVORCE

Senator Hanna's Son Finds It Hard to Stay Married.

CLEVELAND, March 5.—Suit for divorce was filed today by Elizabeth Gordon Hanna, wife of Daniel R. Hanna, only son of the late Senator Hanna. Hanna is accused of gross neglect of duty, abandonment and extreme cruelty.

Dan Hanna's first marriage was to May Harrington. She obtained a divorce in 1898 and has since remarried. Hanna's present wife has resided in New York city since early last fall. She is the daughter of the late Charles W. Gordon, a millionaire.

FEARS TO FACE COURT

RUEF TRIAL IS OPEN AND ACCUSED HIDES.

Alleged Civic Grafter Dodges Sheriff and His Attorney Attempts to Bulldoze the Court.

SAN FRANCISCO, March 5.—Abraham Ruef, the political leader who yesterday secured a writ of error from Superior Judge Hebbard, did not appear today before Superior Judge Dunne for trial on the indictment for alleged felony returned by the grand jury. Ruef and his attorneys considered that the action of Judge Hebbard acted as a bar to further proceedings before Judge Dunne, on the ground that following the granting of the writ steps had been taken to carry the case to the United States supreme court, the federal appeal being based on the plea that Ruef had been deprived of his constitutional rights.

When court opened this morning, Assistant District Attorney Heney announced that the prosecution was prepared to proceed with the trial of Ruef, this being the day set for trial, but that the defendant was not present. The court directed the bailiff to arrest Ruef at the door. One of the defendant's attorneys arose to call the attention of the court to the action of Judge Hebbard, but Heney objected to any action in the absence of the defendant. The bailiff then reported that Ruef had failed to respond. The court, without comment, directed the clerk to issue a warrant to take the defendant into custody. Ruef's counsel protested vigorously, saying:

Court Calls Bluff.

"I think, your honor, that such action might bring you in contempt of the supreme court of the United States." The court quietly replied that he did not need instruction, and was not concerned with what other tribunals might do. The attorney, however, persisted in outlining the transactions elsewhere in Ruef's behalf, and Judge Dunne said:

"I am going to proceed with this trial until the supreme court of this state or the United States court of appeals commands me to desist."

A recess of an hour was ordered to permit the sheriff to apprehend the defendant.

Upon reconvening, the deputy reported that his search had been fruitless. This brought Heney to his feet with the declaration, "If your honor will appoint Mr. Burns (a detective) as aides I will agree to have the defendant in court by 2 o'clock; in fact, I will have him here in half an hour."

Ruef Was Missing.

The court responded that he would give the sheriff until 2 o'clock to find Ruef. At 2 o'clock, Sheriff O'Neil reported that he and his deputies had gone to the defendant's office, but were unable to find trace of him. Judge Dunne ordered an adjournment to 10 o'clock tomorrow morning, to give the sheriff time to find the missing defendant. Detective Burns, who is assisting the prosecution, said he was certain that Ruef had not left the city, but had been in secret consultation with one of his counsel during the time the deputies were searching for him. From information brought to him Burns was confident that Ruef had secluded himself in a room attached to a restaurant. Assistants of Burns kept watch on the place tonight.

ADAMS' LIFE SMALL MATTER

State's Attorney Says Defense Would Sacrifice Prisoner to Save Federation Officers.

WALLACE, Ida., March 5.—Counsel for the state are better friends to Steve Adams than are the attorneys for the defense. The latter are in the case simply for the purpose of getting evidence in favor of Moyer, Pettibone and Haywood, and they do not give a jackstraw for Steve Adams or what happens to him."

With these words State Attorney J. H. Hawley today started a sharp attack on the defense in the case of the state against Steve Adams for the murder of Fred Tyler.

"The state does not wish to see an innocent man hanged," continued Mr. Hawley, "but the defense does not care. We believe Adams is guilty of the murder. We are trying this case upon its merits, and not for the purpose of finally convicting the officers of the Western Federation of Miners of another crime."

"The defense talks nonsense," said Mr. Hawley, "when it states that the prosecution is not being carried on in good faith. Governor Gooding's visit to Steve Adams at the penitentiary was made in good faith, and not for the purpose of injuring the prisoner's chances. There was nothing about the confession that was illegal, and no pressure was brought to bear upon him to make him give that confession."

Arguments both for the prosecution and for the defense to the jury have been closed and Judge Woods will give the jury final instructions tomorrow morning. These instructions would have been given tonight but for the fact that Jacob Franc, one of the jurors, was sick and unable to attend.

SPATS WITH JUDGE

JEROME READY TO FIGHT HIS GRANDMOTHER.

DEFIES AND SNEERS AT COURT

IS CALLED DOWN BY JUSTICE FITZGERALD.

WILL CALL THAW'S MOTHER

Alienist Wagner Proves Too Many for the District Attorney, Who Injures His Case by Impatience and Irascibility.

Thaw Is Nervous.

NEW YORK, March 5.—Interest aroused in today's session for the trial of Harry K. Thaw by the announcement that Mrs. William Thaw, mother of the defendant, would take the witness stand, was quickly dulled by the continued cross-examination of Dr. Charles G. Wagner, one of the alienists for the defense, by District Attorney Jerome. Dr. Wagner was on the stand all day and when adjournment was announced the district attorney seemed to have much ground to cover with the experiment.

Mrs. Thaw was present in the witness room today, waiting to be called, but she may not be reached before late tomorrow or Thursday morning.

While decidedly dull in the matter of testimony, today's session was made notable by a clash between District Attorney Jerome and Justice Fitzgerald at the outset of which the prosecuting officer refused point blank to cite to the court the authorities upon which he was predicating an argument. Mr. Jerome was requested by the presiding judge to submit to him whatever authorities he had on the subject.

Clashes With Court.

"I have such a high respect for the courts of this jurisdiction," retorted Mr. Jerome, "that I will not submit authorities on a question of law which is so elemental in character and upon which the authorities are so abundant that I must presume the learned court knows of them."

With flushed face and a sharp rap of his gavel, Justice Fitzgerald said if the district attorney did not submit the authorities the court would assume that he did not know of any. Mr. Jerome did not submit the authorities and Justice Fitzgerald ruled in favor of the defense on the point at issue, which was the question as to whether the state on cross-examination should be allowed to go further with an expert witness than counsel for the defense was allowed to go upon direct examination.

District Attorney Jerome was as defiant in his tone as he was in the words he uttered. Justice Fitzgerald rapped several times with his gavel, twisted about impatiently in his chair, and it was plainly with much effort that he retained his judicial composure.

Jerome Is Defiant.

The incident began with an objection interposed by Mr. Delmas to the question asked Dr. Wagner by Mr. Jerome. The district attorney wanted the witness to repeat certain conversations he had had with Thaw in the Tombs. Mr. Delmas protested that he had not been allowed to go into these conversations on direct examination. He was proceeding at some length to state the position of the defense when Mr. Jerome interrupted with the remark that the argument did not call "for a stump speech."

Mr. Delmas protested against this "offensive language" by the district attorney. Justice Fitzgerald interposed in the discussion and Mr. Delmas was soon lost to view because of the turn affairs took.

During his argument the district attorney placed himself on record by saying that the legal assumption before the court today is that Harry K. Thaw is insane.

The Jury's Duty.

Justice Fitzgerald declared the present jury only has to do with the question of Thaw's sanity or insanity on the night that he shot and killed Stanford White.

Much of the day was given over to technical questions concerning the mental and physical examination to which Thaw was subjected in the Tombs by Doctors Wagner and Evans. During some of the long explanations offered by the alienist, Mr. Jerome walked restlessly to and fro and once or twice near the newspaper men and entered into conversation with them.

In answering some of the questions, Dr. Wagner said he was compelled to use long names. "Go ahead," said the prosecutor. The official stenographer squirmed, and most of the jurors laughed heartily.

"I can't help it," explained Dr. Wagner, as if in apology for the longest name he uttered. "I know you can't," said Mr. Jerome. "You go right ahead whenever you feel like it."

Not Contagious.

Dr. Wagner went into a long explanation of the nature of illusions, delusions and hallucinations of the taste and smell, which he followed with technical descriptions of nerves, nervous diseases and affections and the tests used in examining them. One of the diseases he mentioned had a name consisting of five complicated Latin words, which caused a laugh in the court room, and was too much even for the district attorney.

"Is it contagious?" asked Jerome.

The witness laughed with the others, and said he did not think it was.

"In all the evidence submitted to me and on which I based my opinion," said the witness, "there was not the slightest suggestion of epilepsy."

Mr. Jerome pressed for an answer to the question if there was anything suggesting this in Thaw's actions on the night he shot Stanford White. Dr. Wagner said he knew of nothing "necessarily" suggestive of epilepsy.

At this point there began one of the most spirited incidents of the trial, with [illegible] Mr. Jerome, Mr. Delmas, Justice Fitzgerald and the witness all taking part.

"Don't duck by using 'necessarily,'" commented Jerome.

"I am not ducking," replied Dr. Wagner with spirit. "I am telling the truth."

Justice Fitzgerald rapped with his gavel and ordered all these remarks stricken from the record.

"An epileptic may have done these things," continued Dr. Wagner, "but no single thing points to epilepsy."

Mr. Jerome next directed the witness to tell all that the defendant said to him in the Tombs regarding the subject of epilepsy in the family.

Mr. Delmas objected to the question on the ground that it was too broad. Dr. Wagner's direct testimony having been confined to the first three visits to Thaw, when the witness was of the opinion the defendant was insane.

"This is a most unusual thing," said District Attorney Jerome, "for a scientific witness to try to exclude facts. I am entitled to ask broad questions to test the credibility of this witness as an honest man."

Mr. Delmas declared Jerome's questions were too broad.

"I have ruled again and again on

ADY AT LAST REMOVED

DEMOCRATIC COMMITTEE IS RID OF BURNS.

D. M. Wright Elected Chairman; F. F. Noxon Secretary; B. Lee Ralston New Member.

Chairman Roscoe T. Ady, representing the Burns faction and the Democratic city element in the Democratic city central committee, was removed for cause from his office by a unanimous vote of the six members present, at an adjourned meeting of the committee in the police court room, in the city hall last night.

D. M. Wright, a committee member from the Seventh ward, was unanimously elected to succeed Ady as chairman, and F. F. Noxon was elected secretary of the committee. The secretary was instructed to notify Ady of his removal. B. Lee Ralston was elected a committeeman from the Seventh ward, to succeed Wright.

Because of Ady's absence, Wright acted as temporary chairman when the committee convened, Noxon being temporary secretary. After Ady's removal, Wright and Noxon were declared the permanent officers of the committee.

The chairman was ousted because of his "open, notorious and constant opposition to the election of the Democratic ticket at the election held last November," this reason being given in the call previously issued by five of the eight members of the committee.

Committeeman H. C. Cassidy and Hal Bishop of the Second and Fourth wards, who are the only sympathizers of the Ady-Burns faction on the committee, were also absent. The other six members of the committee voted unanimously on the question of his removal, Wright and Noxon as chairman and secretary. The members present were as follows: H. R. Gregg, First ward; John Sillington, Third ward; W. H. Robison, Fifth ward; F. J. Taylor, Sixth ward; D. M. Wright, Seventh ward, and Edward W. Frost, Eighth ward.

The committee will probably meet tomorrow night to arrange details with regard to the Democratic primaries, which will be held on Friday afternoon, between 3 and 7 o'clock p. m.

Nearly three weeks ago the committee issued a call for a special meeting to remove Ady for cause. The meeting was called for Saturday night, but Chairman Ady, by a ruse, temporarily defeated the purpose of the committee. He secured a restraining order from the district court late Saturday evening, just before the committee convened, preventing its members from removing him until the case was heard on its merits in court.

The case was heard by Judge W. S. Morris last Monday, and was decided in favor of the regular Democrats, even the costs being taxed against Ady. Last night's meeting was in accordance with a previous resolution, to the effect that the committee meet on the day after the court's final decision.

FIRES HOME AND BURNS BOY

Incendiary's Fatal Deed Due to Jealousy.

ALBUQUERQUE, N. M., March 5.—The 6-year-old son of Henry A. Montoya was burned to death early this morning in a fire which consumed the home at Estancia, near here. The house was set on fire by Augustine Villes, an ex-convict and divorced husband of Mrs. Montoya, who has been hanging around the place for some time and who had become insanely jealous of his former wife. Villes was seen riding furiously across the country headed for the mountains, this morning, a short time after the fire, and the mounted police are now hot on the incendiary's trail.

Count Witte Is Pessimistic and Fears Worst Is to Come—Premier Stolypin Expects Assassination and Secludes Himself in Palace.

ST. PETERSBURG, March 5.—The opening today of the douma, or lower house of the Russian parliament, although itself devoid of incident, was made the occasion of a great revolutionary demonstration by the St. Petersburg proletariat and students, which resulted in several encounters between the police and the populace and more or less injury to a number of the latter. The situation was such that the authorities finally were forced to fill the streets with military patrols, as in the ominous days of the Trepoff regime. After the adjournment of the house a tumultuous crowd, estimated to number not close to 40,000 persons, with red banners flying and accompanied by the music of revolutionary chants, started toward the center quarter of the city, where the winter palace of the emperor is located. Few elements of the program of "Red Sunday" were lacking, and the command "fire," would have precipitated a similar massacre. But the prefect of St. Petersburg followed another course and dispersed the procession by charges of mounted gendarmes armed with whips. By an imposing display of force, he prevented the demonstrations from reforming.

Police Are Cautious.

The police guarding the Tauride palace acted with great forbearance, giving the spectators free vent in singing and cheering and only interfering to prevent the people from forcing their way into the palace.

When the deputies emerged after the adjournment of the session, the temper of the crowd was fired by speeches from social revolutionary members, a dozen of whom, mounted upon the shoulders of their followers, and haranguing those present upon the necessity of organizing to support parliament against the government. The official revolutionary motto, "through fight our right," was adopted as a general slogan, and simultaneously red handkerchiefs began to flutter above the heads of the crowd and then the crimson banners appeared like magic. The crowd, singing the battle song of the Russian revolution, moved slowly down the avenue, stopping at intervals to listen to speeches and to sing.

Gendarmes Use Whips.

Meanwhile the authorities had hastily concentrated a strong force of gendarmes, which charged the head of the procession when it reached the Litolay precinct, one of the main business avenues. The gendarmes played their whips vigorously and in one case used the flats of their sabers. The crowd made two unsuccessful attempts to reassemble. The gendarmes by this time had been reinforced by detachments of the chevalier guards, who cleared the roadway amid curses of derision from the sidewalks. Finally a large force of Cossacks, armed with lances, arrived. The spiteful red-pennoned weapons, which never before had been brought out in street demonstrations, took all the heart out of the crowd.

Another monster demonstration was held at the university to celebrate the anniversary of revolutionary democracy.

The quay along the Neva and the streets in the neighborhood of the university were densely packed, but there was no interference by troops or police, who arrived on the scene in strong force only after the demonstration had come to an end.

Premier Is Scared.

It was learned tonight that Premier Stolypin, in order to diminish his chances of possible assassination, would spend the night in the Tauride palace, and it is understood that he has taken a suite of rooms in a wing of the palace, which he will occupy as long as parliament is in session.

Several consultations have been secretly held by the leaders of the opposition in the douma to see whether some sort of compromise with the government was possible, but after full consideration it was announced by Professor Milukoff that no such arrangement could be made so long as M. Stolypin remained at the head of the cabinet. The opposition demands the premier's resignation and do not expect to do any constructive work until it is received. This attitude leads to the belief that the second douma will follow the steps of the first, too prudent extending to dissolution. The leaders of the opposition who believe that what they call the "sacred anger of the people" will be aroused by the dissolution of the second parliament, claim to have assurances that no further loans can be negotiated abroad without the consent of the douma.

Fears Worst to Come.

Count Witte is very pessimistic, and fears the worst yet is to come. He thinks the masses have shifted considerably to the opposition during the last year, but doubts whether this will be permanent. His view is that they have learned a great deal in practical politics, and that anything like the unsuccessful strike of October, 1905, is now [illegible].

HOW TO FIND OUT.

It is the function of the kidneys to filter and purify the blood which is constantly passing through them.

When the kidneys are out of order the other organs are affected immediately and you may have symptons of heart trouble, stomach and liver trouble, and other ailments, which are all owing to the kidneys being weak and out of order.

If you are sick **Foley's Kidney Cure** will strengthen and build up the worn out tissues of the kidneys so they will act properly and the symptons of weakness, heart, stomach and liver trouble will disappear and you will be restored to perfect health.

HOW TO FIND OUT.

You can easily determine if your kidneys are out of order by setting aside for 24 hours a bottle of the urine passed upon arising. If upon examination it is cloudy or milky or has a brick-dust sediment or small particles float about in it, your kidneys are diseased and **Foley's Kidney Cure** should be taken at once.

Foley's Kidney Cure is pleasant to take and acts directly upon the parts affected and you begin to feel better at once.

It corrects slight disorders in a few days and it has cured many obstinate cases after other treatment had failed.

Doctors Said He Would Not Live.

Peter Frey, of Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month, as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it and after taking three bottles I began to get better and continued to improve until I was entirely well."

Senator Patterson Appears in His Own Defense, as Counsel Would Not Take Pay.

WASHINGTON, March 5.—Senator Patterson of Colorado today began argument in his own behalf in the supreme court of the United States, on the contempt case brought against him by the supreme court of Colorado. The case grows out of strictures on the court made by Senator Patterson in his two Denver papers, the News and the Times.

The case was reached only about half an hour before court adjourned today, and most of that time was spent by the senator in outlining the case and explaining the circumstances appearing as his own lawyer. On the latter point he said his counsel would not consent to receive pay for appearing for him, and that he would not permit them to appear without it.

Responding to the senator, the chief justice remarked that Mr. Patterson was evidently and properly proceeding upon the theory that "if you want a thing done well, you should do it yourself." The case grows out of reflections by Mr. Patterson's papers on the decision of the state court in the Colorado election cases of 1904, in which the court was accused of revolutionary and partisan conduct. He afterward justified these statements by witnesses to the facts, and he repeated this assertion to the federal supreme court. The state court imposed a fine of $1,000.

CAUSE OF DEATH DOUBTFUL

Coroner's Jury Fails to Determine Guerin's Shooting as Suicide or Murder.

CHICAGO, March 5.—A coroner's jury was unable today to determine whether Webster Guerin, the artist who was found dead in his studio last week, came to his death from a shot fired by himself or by Mrs. McDonald who was in the studio at the time of the shooting and is now under arrest charged with killing Guerin. The jury was out for over eight hours, and finally decided to return an open verdict.

The case will now go to the grand jury, and the criminal court. After the verdict Coroner Peter Hoffman said:

"I am of the opinion that the verdict will be approved in criminal court. In the evidence produced today at the inquest there was nothing to show conclusively that Guerin was shot by the woman, while there was testimony that gave rise to a reasonable doubt, and this undoubtedly influenced the jury in the decision.

TO IMPROVE POSTAL SERVICE

President Confers With New Postmaster General and Others on Plans for Betterment.

WASHINGTON, March 5.—President Roosevelt today had a conference with Postmaster General Meyer and members of the postal commission, including Senators Penrose and Carter, and Representatives Overstreet and Gardner of New Jersey. The commission is to make a thorough investigation of the methods of administration employed in the postal service, with the view to suggesting reform and improvements that may be for the betterment of the service. There was a general exchange of ideas between the president and his callers regarding the work.

Postmaster General Meyer believes that the most improved business methods should be adopted in all branches of the postal service, with the view to it becoming entirely self-supporting, and that reforms should be put into effect wherever there is any evidence of a want of system or laxity of method.

BOSTON, Mass., March 5.—Former Senator William E. Chandler, special counsel for George Washington Glover and the others who have brought suit in behalf of Mrs. Baker G. Eddy against a number of Christian Science officers held a conference here tonight with the attorneys associated with him in the case. The other lawyers included John W. Kelly of Portsmouth; Dewitt E. Howe and N. E. Martin of Concord. No statement as to the conclusions reached was made.

CONTEST CHANCELLORSHIP

Lords Curzon and Rosebery Run for Election.

LONDON, March 5.—An interesting contest is imminent between Lord Curzon and Lord Rosebery for the vacant chancellorship of Oxford university. It has been supposed that Lord Curzon, who was nominated to this office some time ago, would be returned without opposition, but now Lord Rosebery has accepted a nomination also, and the matter will be decided on March 18, when the election will be held.

CRIPPLE CREEK, March 5.—The Democratic central committee met tonight and decided to hold a caucus on March 9 for the election of delegates to the primaries on March 11.

SAYS THIS RELIEVES BACKACHE.

A well-known authority says that backache is often Nature's danger signal which notifies the sufferer that the kidneys are sick.

The following simple home-made mixture is said to relieve backache and cleanse and build up the kidneys, if taken before the stage of Bright's disease: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after meals and at bedtime.

A well-known local druggist is authority that these ingredients are mainly of vegetable extraction and harmless to use, and can be obtained at small cost from any good prescription pharmacy. Those who think they have kidney trouble or suffer with lame back or weak bladder, should give this prescription a trial, as no harm can possibly follow its use, and it is said to do wonders for some people.

GENERAL BOOTH IS HEARTY

Aged Leader Visits America on a Tour of World—Will Not Appear in Public.

NEW YORK, March 5.—General William Booth, the aged leader of the Salvation Army, arrived here today from London. He will spend two days as the guest of his daughter, Commander Miss Eva Booth, who is in charge of the American work of the organization, and then will leave for Montreal, Ottawa, Toronto and Seattle, whence he will sail for Japan. After a short stay in that kingdom, he will go to India, and thence return to England. In the fall he will again come to the United States, this time for a general tour of the country. His present visit is purely a private one, and he will make no public addresses.

General Booth showed a remarkable vigor for a man who on April 10 will celebrate his 78th birthday. He declared he is in perfect health, and that he had enjoyed his voyage. He spoke enthusiastically of his several projects, after which he spoke of the success which has attended the founding of antisuicide bureaus in many cities of England. The first five weeks of the work in London, he said, brought 500 cases.

WANTS TO MAKE A RECORD

Engineer Stevens Shows Big Canal Work for February.

WASHINGTON, March 5.—Chief Engineer Stevens is trying to make a record before he turns the Panama canal work over to his successor, Colonel Goethals, as is evidenced by a cablegram from him received by Secretary Taft, which says:

"In 25 working days in February, excavation on the Culebra cut was 658,644 yards. On the same basis for a full month it would have been 732,000 yards. March should go considerably over 800,000."

MILLIONAIRE IS BANKRUPT

Leroy Dresser Lost $3,000,000 on Shipbuilding Trust.

NEW YORK, March 5.—Daniel Leroy Dresser, the broker, today was given a discharge in bankruptcy after proceedings beginning in March, 1903. Creditors agreed to the action in order to enable Mr. Dresser to bring suit for the recovery of $2,000,000 which he asserts he lost through the collapse of a shipbuilding trust by the alleged withholding of securities, which he had hypothecated.

Nature's Way Is Best.

The function strengthening and tissue building plan of treating chronic, lingering and obstinate cases of disease as pursued by Dr. Pierce, is following after Nature's plan of restoring health.

He uses natural remedies, that is extracts from native medicinal roots, prepared by processes wrought out by the expenditure of much time and money, without the use of alcohol, and by skillful combination in just the right proportions.

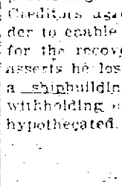

Used as ingredients of Dr. Pierce's Golden Medical Discovery, Black Cherry-bark, Queen's root, Golden Seal root, Bloodroot and Stone root, specially exert their influence in cases of lung, bronchial and throat troubles, and this "DISCOVERY" is, therefore, a sovereign remedy for bronchitis, laryngitis, chronic coughs, catarrh and kindred ailments.

The above native roots also have the strongest possible endorsement from the leading medical writers, of all the several schools of practice, for the cure not only of the diseases named above but also for indigestion, torpor of liver, or biliousness, obstinate constipation, kidney and bladder troubles and catarrh, no matter where located.

You don't have to take Dr. Pierce's say-so alone as to this; what he claims for his "Discovery" is backed up by the writings of the most eminent men in the medical profession. A request by postal card or letter, addressed to Dr. R. V. Pierce, Buffalo, N. Y., for a little book of extracts from eminent medical authorities endorsing the ingredients of his medicines, will bring a little book *free* that is worthy of your attention if needing a good, safe, reliable remedy of *known composition* for the cure of almost any old chronic, or lingering malady.

Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic.

The most valuable book for both men and women is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy, paper-covered, will be sent to anyone sending 21 cents in one-cent stamps, to pay the cost of mailing *only*, to Dr. R. V. Pierce, Buffalo, N. Y. Cloth-bound, 31 stamps

TO PUSH DEVELOPMENT WORK

Nevada-Tomahawk Company Will Prove Up Vein and Start Stamp Mill.

The highly encouraging assays secured on ore found on the property of the Nevada-Tomahawk Gold Mining & Milling company, owning property in the celebrated White Horse mining district, in Washoe county, has resulted in definite plans for immediate development work on the part of the directors of the company, who are all local men.

The property comprises 60 acres, including the Lois, Blue Bell and Daisy claims. At grass roots ore was found on the Blue Bell claim which, by mill assay, returned average assays of $12.40 per ton. Further down a vein was encountered which returned values ranging from $50 to $154.88 per ton. The vein, which was at first thought to be a four-foot shoot, has widened, and its width has not been determined.

The company will at once face a four-foot tunnel to a distance of 50 feet, in order to test the value of the ore at that point. The present vein has every indication of permanency, and previous assays indicate that the value will increase with depth. However, should even the present values continue, a stamp mill will be constructed on the property to handle the ore extracted from the tunnel.

The property is located eight miles from Olinghan, a station on the Southern Pacific railroad, and is only four miles from a custom mill, so that its low-grade ore can be readily treated, regardless of the projected stamp mill for the higher grade ore expected. The famous Noble Seven property adjoining the Nevada-Tomahawk territory, has yielded a bonanza production.

Should the directors erect a stamp mill, which seems more than probable, an excellent site at hand on the property will be utilized, while sufficient water for power and treatment lies 150 feet from the shaft.

In order to raise funds for immediate development work, the directors have decided to sell 25,000 shares of treasury stock at 5 cents per share. This stock can be obtained from I. O. Armes, secretary of the company, at room 32 Midland block, or from any of the directors of the organization. C. S. Railsback, sergeant of the local police department, is president of the organization, while W. A. Day is vice president and R. P. Van Hook treasurer. These compose the directorate, together with J. M. Riley and E. T. McClimans.

SOLDIERS ARE SENTENCED

Disturbers of Peace at Leavenworth Punished.

LEAVENWORTH, Kan., March 5.—The sentences of the three troopers of the Ninth cavalry who were the ones who caused the riot on a street car here Christmas eve, the men having recently been tried by court martial, have been received at Fort Leavenworth.

The department commander in reviewing the proceedings cut down the sentence of Private Wesley Steward, troop F, from two years in the military prison to one year. Saddler George W. Taylor, troop F, was sentenced to be confined at hard labor in charge of the post guard for 30 days, the first and last seven days to be put on a bread and water diet. Blacksmith Dawson, troop F, tried on the same charges as the other men, was acquitted.

SEARCH FOR MISSING CASH

Treasury Experts Fail to Find Trace of $173,000.

CHICAGO, March 5.—Any possibility that the missing $173,000 from the local subtreasury might have been mislaid with the currency on hand, was eliminated today when the four experts from the United States treasury [illegible] the last of the paper money in the vaults. The Real Value

If you have headache or neuralgia you want relief; want it quick. Dr. Miles' Anti-Pain Pills stop the pain in just a few minutes. But their real value lies in the fact that they leave no bad after effects. They do not create nausea or derange the stomach. Nothing can therefore take the place of Anti-Pain Pills for the relief of headache or other pain.

"Dr. Miles' Anti-Pain Pills do all that is claimed for them in curing headache and neuralgia. I was in Farmington and I had a fearful headache; the gentleman of the house said, 'Take one of my wife's Pain Pills,' and I did, and in less than one-half hour I felt as well as ever. I asked the name of these and he said 'Dr. Miles' Anti-Pain Pills.' I purchased a box, and told my family I had found a great prize—something to cure headache. My three daughters also used them. A thousand thanks for such a remedy."

MRS. JAMES BLACKBURN, 36 Summer St., Rochester, N. H.

Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

OPERA HOUSE ATTRACTIONS

What the Press Agents Say

"THE TENDERFOOT" COMPANY

Oscar L. Figman will be seen at the Opera house next Monday evening in Richard Carle's and H. L. Heartz' great musical comedy success, "The Tenderfoot." This characteristic opera abounds in picturesque scenes, the Texas locale giving abundant opportunity for richness of coloring in the costuming of the Mexicans and senoritas, the rangers and cowboys and the seminary visitors. The music is swinging and tuneful, while the comedy is of a variety that has caused critics to call "The Tenderfoot" the funniest of all comic operas. Mr. Figman, in the title role, is said to be delightful with his quaint humor and dancing.

Miss Ruth White, one of the greatest prima donnas in the country, brings to the role of Marion a remarkably fine soprano voice and acting ability. Lawrence Coever, a tenor of distinction, has made much of the role of Paul, while Harry B. Williams, Grace Sloan, Louise Brackett, Esther Kherns and A. W. Hutchins, also score heavily. The chorus is splendidly drilled and the organization is one of the largest that will be seen here during the entire season.

THEODORE LORCH AT THE OPERA HOUSE ALL THIS WEEK

The popular young Russian actor, Mr. Theodore Lorch, is playing a week's engagement at the Opera house, presenting some excellent plays at popular prices. Mr. Lorch is well supported and their performances are giving great satisfaction to the patrons of the Opera house. Tonight the company will present a very strong drama entitled "A Lion's Heart." Tomorrow, for matinee and night, Mr. Lorch has selected Nat Goodwin's favorite comedy, "In Old Missouri." This play should pack the house both afternoon and evening. On Friday evening they will present their great society drama entitled, "Society Thief." On Saturday, matinee and night, Mr. Lorch will close his present engagement by presenting the good western comedy drama, "Nobody's Claim." Matinee prices are: Adults, 25c; children, 15c. Evening prices are: [illegible]

OFFER NEW SPECIAL PRIZES

Horticultural Society Plans Additional Classes for Sweet Peas in Coming Flower Show.

A number of new special prizes will be given at the next annual show of the El Paso County Horticultural society to be held next fall. This was decided on at a special meeting of the society last night at the home of Mrs. F. W. Goddard, 808 North Cascade avenue.

The prizes will be for special classes in sweet peas. Two of the new prizes will be known as the H. A. Harris memorial awards. Cash prizes will be given all the children's classes. A silver cup, the most valuable trophy offered by the society, will be given to the winner of the new class, open to all comers.

The discussion of the schedule for the present year occupied the greater part of the meeting. Refreshments were served.

GOOD NEWS TO STOCKHOLDERS

The Nevada Portland Gold Mining company makes some announcements in today's paper which should be very pleasing to those who have invested in that company. It is that two more valuable patented claims have been added to the holdings of the company, making the present acreage 140 acres, 80 acres of which is owned by the company in fee simple and the other claims by right of discovery and prior location. Within the last ten days this company has almost doubled its holdings, increasing from 80 acres to 140. Those who bought stock at a low figure have the benefit of the increased value in the company's holdings without additional cost to them.

The company has all of its properties fully paid for and a large sum in the treasury for development purposes, and the superintendent has been ordered to put a force of men at work at once opening a great vein which shows very rich surface values.

This company is pursuing a policy which should commend it to all careful, conservative investors. It is more than making good every promise made, and is rapidly building up the company by acquiring valuable properties, while such lands can be acquired at a reasonable price. If a company had pursued this plan in the early days of Cripple Creek it could have acquired a large part of the most valuable property in that district for a comparatively small sum and have made immense fortunes for both the promoters and stockholders.

The Nevada Portland Gold Mining company announces that it intends to procure as large an acreage as possible, not only in the Alum Creek district, but in other good districts, and it has negotiations now pending for properties in such camps. As soon as these claims are purchased they will be put in the company. This policy, if followed out, ought to make this company one of the strongest in the country, and the stock that is now selling at 7 cents should run up into the dollars. The Nevada Portland Gold Mining company has shown itself worthy of the confidence which the people have placed in it. Those who failed to get stock should at once invest, while the price is still low.

To Owners of Bad Breath--

Foul Odor of Indigestion, Smoking, Eating or Drinking Stopped at Once With Stuart's Charcoal Lozenges

Trial Package To Prove It Sent Free

Bilious breathers, onion eaters, indigestion victims, cold sufferers, smokers, drinkers and those with gas on the stomach are in a class all by themselves, distinguished by a powerful bad breath.

They all breathe, and as they breathe they whiff out odor which makes those standing near turn their heads. It is a pity that these victims do not realize what a sickening thing a bad, offensive breath is to others.

Charcoal is a wonderful absorber of gases and odors. It absorbs 100 times its own volume of gas.

Stuart's Charcoal Lozenges put a stop to your bad, offensive breath and to your belchings, whatever the cause or source, because the charcoal quickly absorbs all noxious, unnatural odors and gases.

If you suffer from indigestion and belch gas as a result, Stuart's Charcoal Lozenges will absorb all the gas and make you stop belching.

If on getting up in the morning you have such a bad, bilious breath that you can almost smell it yourself, Stuart's Charcoal Lozenges will get rid of it for you quickly.

If you have been smoking or chewing, or have been eating onions or other odorous things, Stuart's Charcoal Lozenges will make your breath pure and sweet.

Charcoal is also the best laxative known. You can take a whole boxful and no harm will result. It is a wonderfully easy regulator.

And then, too, it filters your blood—every particle of poison and impurity in your blood is destroyed and you begin to notice the difference in your face first thing—your clear complexion.

Stuart's Charcoal Lozenges are made from pure willow charcoal, and just a little honey is used to make them palatable, but not too sweet.

They will work wonders in your stomach, and make you feel fine and fresh. Your blood and breath will be purified. You will feel clean inside.

We want to prove all this to you, so just send for a free sample today. Then after you get it and see, you will like them so well that you will go to your druggist and get a 25c box of these Stuart's Charcoal Lozenges.

Send us your name and address today and we will at once send you by mail a sample package free. Address F. A. Stuart Co., 93 Stuart Bldg., Marshall, Mich.

NEWS OF THE LOCAL COURTS

Attorneys Hughes and [illegible] for the plaintiff, and former [illegible] Thomas, acting for the defendant, spent all day yesterday arguing a motion by Attorney Thomas that a non suit be entered in the district court in the case of the Jennie Sample Consolidated Mining company vs. Mrs. A. E. Cone. The defense claims that the plaintiff has not established its right to any part of its vein in the territory owned by the defendant. Attorney Hughes will continue his argument today.

Thomas Hathaway was yesterday sentenced by Justice W. N. Ruby to serve six months in jail on each of two charges of assault, and was bound over to the district court on a charge of resisting an officer and also on a charge of threats to kill. On each of the two latter charges he was committed in default of bail in the sum of $500.

Hathaway is the man who created a scene by assaulting Constable Larrabee when placed under arrest by the officer last Saturday, and who made [illegible] awaiting trial before Justice Ruby Monday afternoon.

W. S. Walton, charged by his wife with nonsupport, was acquitted by a jury in Justice O. R. Dunnington's court last evening.

H. Smith, Bud Walker, Fred Moore and Oliver Seymour, all colored, were acquitted of a charge of gambling by Magistrate Toombs yesterday afternoon, owing to lack of evidence.

Laura Brockman, colored, was committed to the county jail by Magistrate Toombs yesterday, in default of a fine of $25 for fighting and disturbance.

Post No. 22, G. A. R., meets at 7:30 o'clock this evening.

Irwin, who is 65 years of age, has lived in this city for more than 20 years and was prominent in the early days of Cripple Creek. Mr. and Mrs. Irwin have one daughter, Mrs. Ralph Kellogg, of Searchlight, Nev. Mrs. Irwin is about 55 years of age. The couple have been married 31 years.

Mr. Doyle said last night that he is uncertain whether he will prosecute Mr. Irwin, but that he probably will do so.

"I do not see why I should not," he said.

Chief of Police Adams declares that he will push the matter in court, regardless of the action of others. It is a case demanding immediate attention, in the opinion of the police chief.

Unaware that Chief Adams had filed a complaint against Irwin, Assistant District Attorney Henry Trowbridge swore to a complaint against Doyle's assailant in Justice Dunnington's court late in the afternoon, withdrawing the action after being informed of Adams' previous complaint in Ruby's court.

Party of Legislators Will Go to Cuba, Panama and Porto Rico.

WASHINGTON, March 5.—Secretary Taft has invited Senator Kittridge of South Dakota and Representative Burton of Ohio, and De Armond of Missouri, to accompany him on his approaching trip to Cuba, the Isthmus of Panama and Porto Rico, and they have accepted the invitation to acquaint themselves with conditions in those places so as to help them in participating in the legislation in the next congress relative thereto.

GERMAN STEVEDORES STRIKE

Refuse to Do Night Work and Ship Owners Retaliate.

HAMBURG, March 5.—The controversy between the ship owners of this port and the stevedores has become active again. The latter refuse to do any night work, which has been abandoned since May day, 1906, as a demonstration against the punishment of their comrades, who participated in the May day celebration. The ship owners have decided to engage other men at other places and substitute them for the stevedores now employed here.

THE CHANGE OF LIFE

Sensible Advice to Women from Mrs. Henry Lee, Mrs. Fred Certia and Mrs. Pinkham.

MRS HENRY LEE   MRS. FRED CERTIA

Owing to modern methods of living not one woman in a thousand approaches this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms.

This is the most critical period of her whole existence and every woman who neglects the care of her health at this time invites disease and pain.

When her system is in a deranged condition or she is predisposed to apoplexy or congestion of any organ, the tendency is at this period likely to become active and with a host of nervous irritations make life a burden. At this time also cancers and tumors are more liable to form and begin their destructive work.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, melancholia, dread of impending evil, palpitation of the heart, irregularities, constipation and dizziness are promptly heeded by intelligent women who are approaching the period of life when this great change may be expected.

Mrs. Fred Certia, 1014 So. Lafayette Street, So. Bend, Ind., writes:

Dear Mrs. Pinkham:—

"Lydia E. Pinkham's Vegetable Compound is the ideal medicine for women who are passing through Change of Life. For several months I suffered from hot flashes, extreme nervousness, headache and sleeplessness. I had no appetite and could not sleep. I had made up my mind there was no help for me until I began to use Lydia E. Pinkham's Vegetable Compound, my bad symptoms ceased, and it brought me safely through the danger period, built up my system and I am in excellent health. I consider Lydia E. Pinkham's Vegetable Compound unsurpassed for women during this trying period of life."

Mrs. Henry Lee, 60 Winter Street, New Haven, Conn., writes:

Dear Mrs. Pinkham:—

"After suffering untold misery for three years during Change of Life I heard of Lydia E. Pinkham's Vegetable Compound. I wrote you of my condition, and began to take Lydia E. Pinkham's Vegetable Compound and followed your advice, and to-day I am well and happy. I can now walk anywhere and work as well as anyone, and for years previous I had tried but could not get around without help. I consider your medicine a sovereign balm for suffering women."

Women passing through this critical period should rely upon Lydia E. Pinkham's Vegetable Compound. If there is anything about your case you don't understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is free and has guided thousands to health.

When a medicine has been successful in restoring to health, actually thousands of women, you cannot well say without trying it, "I do not believe it will help me." It is your duty to yourself and family to try Lydia E. Pinkham's Vegetable Compound.

WEDNESDAY, MARCH 6, 1907

ROOSEVELT'S FUTURE.

ON MARCH 4, 1909, Theodore Roosevelt will retire from the White House. That much is [illegible] even his enemies do not believe that he has a desire to withdraw from the position taken immediately after the last election when he announced that under no circumstances would he again be a candidate for the Presidency. At the end of his present term Mr. Roosevelt will be [illegible] years old, which, as the age of statesmen are measured, is [illegible] manhood. Indeed not more than two or three Presidents have entered the White House as young as Roosevelt will be when he leaves it [illegible]

The question of how Mr. Roosevelt will spend his future years is both interesting and important. That they will be spent in activity is certain. [illegible] impossible to think of him settling down before the [illegible] still in his prime and having for [illegible] to the quiet joys of retirement. Nothing is more likely [illegible] [illegible] country giving [illegible] return [illegible] [illegible] of the United [illegible]

THE CABINET CHANGES.

WITH [illegible] McKinley [illegible] [illegible] changes [illegible] ever since with the [illegible] [illegible] Cabinet that will [illegible] [illegible] whether [illegible] pens that Mr. Roosevelt has made [illegible] during the five and a half years since he [illegible] of the [illegible] about however [illegible] Department—the Navy and the Postoffice and in one—the Agricultural Department—there has been [illegible] [illegible] contemplated. Secretary Wilson has held office since the beginning of President McKinley's first term, a period of ten years, and [illegible] likely to [illegible] until [illegible] of the present administration.

President Roosevelt has had [illegible] heads of the State Department, Hay and Root, both of them statesmen of the [illegible] first rank. In the Treasury Department Lyman J. Gage, who held the post of Secretary under McKinley, gave way in 1901 to Leslie M. Shaw, who now retires to be succeeded by George B. Cortelyou. There have been two Roosevelt Secretaries of War—Root and Taft. In the Navy and Postoffice Departments many changes have occurred. In the former branch the headship has passed successively from John D. Long to William H. Moody, Paul Morton and Charles J. Bonaparte, and now it is assumed by Victor H. Metcalf. [illegible] General have been Charles Emory Smith, Henry C. Payne, Robert J. Wynne, George B. Cortelyou and now George von L. Meyer. Moody succeeded Knox as Attorney-General and now he gives way to Bonaparte. The office of Secretary of Commerce and Labor has been filled successively by Cortelyou, Metcalf and Oscar S. Straus. In the Interior Department there has been until now only one Secretary since the beginning of the Roosevelt regime, Ethan Allen Hitchcock, and his administration has been [illegible] efficient as to lift this branch [illegible] [illegible] Garfield.

[illegible] [illegible] Department [illegible] [illegible] [illegible] that he will be a worthy successor to Secretary Shaw. RESOURCEFUL WOMAN.

From the Kansas City Journal.

A farmer's wife wanted to [illegible] of butter to market last Saturday [illegible] the Dougla[s] Tribune, but she did not have the churning done and did she have time to wait till she was [illegible] but she was equal to the occasion. She found [illegible] milk can with [illegible] fitting top and put it in her buggy and drove in the rough and rigid roads [illegible] [illegible] Upon arriving she took the lid off the can and with the ladle and butter tray she had provided dipped up the butter and had it ready for delivery in a jiffy. Even the rough roads can be turned to utility by the gumption of a Kansas woman.

A LITTLE LAY SERMON.

From the Kansas City Journal.

If the sad and frightful story of the Thaw case has one lesson that stands out more distinctly than many others, it is that no loss is so great in the world as the loss of the soul's honor. Despite the thrill of pity which went through the hearts of all who read her confession to that usually cynical priest, the world, it is impossible to forget that Evelyn Nesbit Thaw exchanged her womanhood for the protection of more than one man who has been connected with the case. She was confronted by the same problem which confronts thousands of girls in the department stores and offices of Kansas City and of every city, girls who are content in poverty and honesty, who hold high above all other things the immediate jewels of their souls, and who reject the crust of infidelity that [illegible] womanhood rather than feast at the table of vice. It is not for one to judge [illegible] [illegible] [illegible] insidious teaching on the part of [illegible] mother [illegible] of temptations that were well nigh irresistible, but the world now in this day and age, every girl [illegible] clear idea of what is right and what is wrong. [illegible] this girl was [illegible] a mistaken love. [illegible] story of White's conduct was true [illegible] [illegible] from that experience [illegible] might have [illegible] a beast [illegible] the high value upon her honor would have [illegible] upward and not downward [illegible] [illegible] she flitted from one to the other of her protectors and when one [illegible] is killed by another [illegible] the sympathizing world [illegible] about the "higher law."

Thaw had nothing to lose but the stripping away of Stanford White's fame, just though it be, was one of the tragedies of the affair. No longer is he remembered as the famous architect of monumental building, but the [illegible] satyr and voluptuary. All three of the principals in this unfortunate affair had their fates in their own hands. If they are victims they are victims of their own lusts and passions more than of each other. No hand, however strong, can drag down any human being who does not want to fall and who shuns the slippery places.

Stanford White is dead. The companion whom he made his wife is broken. Thaw faces the mad house. [illegible] the best place for him. [illegible] for his blood, but who wants to see a [illegible] at large. It is very probable that [illegible] life such as his became actually [illegible] to the point of not knowing what was right and what wrong [illegible]

MAXWELL AT BANQUET

SUPREME JUDGE MEETS LOCAL SCOTTISH RITE.

Has Acquired 33rd Degree; Speaks on "The History and Tenets of Masonry."

John M. Maxwell of the state supreme court, a thirty-third degree Mason, was the principal speaker at the banquet given by the Scottish Rite Masons in the dining room of the Alamo hotel last night. The banquet was a most successful affair, covers being laid for 150. Judge Maxwell spoke on "The History and Tenets of Masonry."

Dr. W. A. Campbell presided as toastmaster. Mr. Shears of Denver responded to the toast, "The Ladies." Other speakers were Charles H. Dudley of this city, Mr. Allenger, Salina, Kas., Mr. Allen, St. Johns, New Brunswick. Many out of town guests were present.

Judge Maxwell will return to Denver this morning. He spoke, in part, as follows:

"Other institutions designed by man have arisen and flourished for a time and died. Some, to prevent decay and death, have radically changed and modified, or restated their doctrines and landmarks. Freemasonry has done neither.

"It has been said that there was never anything by the wisdom of man so well devised, or so sure established, which in time hath not been corrupted. Change is written on all things material. Time and manners change and man changes with them. Everything that grows remains in perfection but for a moment. Freemasonry is eternal in its nature and universal in its character. It is rooted and grounded on eternal and immutable principles, and, as principles never change, it never has and never can change. No human power can shake it from its base. It is wholly unlike all other human institutions, because its usages and landmarks have not been and never can be altered. It lies not within the power of any man or any body of men to change the landmarks, the basic principles, of Freemasonry.

Freemasonry No Persecutor.

"It has been bitterly persecuted, yet has never become, and never will become a persecutor. Its enemies have formed political parties to fight it, and, in their zeal and folly, became powerful enough to win political elections in several of the states of the American Union, by reason of the prejudice they were able to excite against it. But the opposition faded away as rapidly as it arose, and is now forgotten. Unawed, it has met the fierce and vindictive assaults of the papacy, and endured without murmuring the unmerited and undeserved bulls of the pope, and yet it never closed its doors against the Roman Catholic, nor sought to interfere with his religion, for in its temples men of all creeds, faiths and professions have been able to find an asylum where each can live in peace with himself and his fellow man and his Maker.

"It has never been cast down by defeat or temporary disaster. The world is beginning to realize that Freemasonry is not simply an association for mutual relief and for the inculcation of the ordinary principles of morality. The student and well-informed Mason well understand that its great object and mission are to restore to Masonry its true character as the apostle and teacher of the most lofty morality and virtue; of freedom with order; equality with due subordination; liberty with restraint, brotherhood with mutual obligations; political enlightenment and philosophical wisdom.

Obligations of Masons.

"As Masons, our obligations bind us not only to help our brothers, their wives, widows and orphans, but the obligation is higher, deeper and broader, for its purpose is to help all whom misfortune pursues, whom wickedness oppresses, and whom falsehood and fanaticism prosecute, thereby hastening the dawn of that day when all shall rejoice in the fatherhood of God and the universal brotherhood of man.

"Masonry in its great design is better understood today than ever before, largely due to the fact that its members are more and more exemplifying by their daily lives and conduct the broad, beneficent humanitarian basic principles upon which it is founded. It is not without its active and malignant enemies in church and state, but those enemies no longer hinder or delay its onward progress. More than a century ago George Washington said, 'The benevolent purpose of the Masonic institution is to enlarge the sphere of social happiness and its general object is to promote the happiness of the human race.' During the last century wonderful strides have been made by the order in the accomplishment of such purpose and object.

Not a Religion.

"Masonry is not a religion and in no sense is it intended to take the place of religion or the church. Masonry has a creed. Not a creed proclaimed by a dogmatic theology circumscribed by narrow sectarian lines. The creed of Freemasonry is: First, a belief in God, the creator of all things; second, the immortality of the soul, an eternal life of which this is only a probationary state. This creed every Mason must profess and its denial is incompatible with his admission or to his continued membership. It tolerates every religious faith and outlaws no one who professes to believe in the above creed.

"Masonry is not in any sense local. It is world wide, and universal. It is not an oasis, a mere fertile spot in a desert waste; not a fountain simply beautifying some well chosen and favored region, satisfying those only who come within its narrow confines, but it is also a limitless ocean of pure water whose waves break upon the shore of humanity, and from which rather than into which, flow countless streams that enrich exhaustless fields to the betterment of the human race. The world is beginning to realize that Masonry not only elevates humanity and promotes human happiness, but it is a search for truth, and that truth is God, and the immortality of the soul. The symbol of the truth is the Word, and Masonry is the search for truth, the Word, God.

The Scottish Rites.

"In this search the A. A. S. R. has taken its part. Its students by their labors of research, by their translations of the ancient mysteries, by their promulgation of the morals and dogma of the Rite, by their preparation of the rituals of the several different degrees, beautiful, impressive beyond words of mine to describe, have contributed and are contributing day by day and year by year, to the consummation of all human happiness.

"How well we as members of the Rite, have profited by these labors is dependent upon the thought and study we have given to the truths which have been outlined only in the exemplification of the degrees of the ritual which he have from time to time witnessed. Deep and thoughtful study only can impress upon our minds the divine truths therein contained. The benefit which the world has derived from the privileges which we have enjoyed is dependent upon the effect upon our daily lives which these lessons have produced."

A BIG TALLYHO PARTY

FIFTY BUSINESS MEN TO INSPECT NEW RESERVOIRS.

Will Be Guests of Fountain Valley Land and Irrigation Company on March 15.

A party of about [illegible] business men of Colorado Springs will be the guests of C. H. Merrick, local agent of the Fountain Valley Land and Irrigation company on March 15, on a tour of inspection of the gigantic irrigation system being constructed by the company in Fountain valley northeast of [illegible]. The party will [illegible] the valley in tallyhos and will spend the day looking over the irrigation work which is being carried on. Lunch will be served at the camp.

Water will be turned into reservoir No. 5, with a capacity of 91,000,000 cubic feet and covering about 100 acres of land, tomorrow morning. When the reservoir is full, the water will have an average depth of about 20 feet.

Reservoir No. 1, the largest of the three planned by the company, has a capacity of 476,000,000 cubic feet and will be completed in about two weeks. It covers 450 acres of territory and when filled the water will have an average depth of 65 feet. The cost of this reservoir is estimated at about $290,000. Work was commenced last May, and since that time 25 men and 20 teams have been employed almost daily. Reservoir No. 1 is situated about five miles north of Fountain.

GOOD BOOSTING FOR COLORADO

Boston Evening Transcript Devotes Quarter of a Column to McClurg Lecture.

That Colorado is receiving some good boosting through the lectures which are being delivered in the east by Mr. and Mrs. Gilbert McClurg is shown by an article which appeared in the Boston Evening Transcript, of February 27. The article follows:

"Long before the sailing of the Mayflower, centuries before the Genoese, Columbus, sailed forth on a 'Sea of Darkness' to discover a world which he fondly hoped to be, there was civilization in Colorado," began Gilbert McClurg, last night, in his illustrated lecture on Colorado, in Jordan hall. The lecture was well named "Panorama of Colorado," for the colored views—250 in number—which illustrated the lecture, passed in rapid succession and literally brought Colorado right into Boston.

Views of the pre-Columbian cliff dwellers and of the Pueblo descendants of those earliest Americans were first projected, and the serpent and sun worship, ceremonials and arts of the Mesa Verde peoples were described and pictured.

Mr. McClurg then paid a poetic tribute to the mountains and, beginning with the discovery of the famous peak by Lieutenant Pike, marshaled the development and phases of Colorado life up to the present day. He explained irrigation methods of agriculture, giving easily comprehended and well-illustrated stories of the growth of the beet sugar, fruit-growing and cattle industries of the Centennial state. The scenery of "the scenic state" and its unsurpassed climate came in for a good share of the lecturer's attention. Mr. McClurg enlivened his address with Spanish legend, Indian romance and humorous anecdotes, although he said that the mountains inspire, awe, uplift and instill feelings of patriotism and are ever lacking as to suggestions of humor. The large audience present gave frequent expressions of its appreciation of the speaker's vivid portrayals and descriptions, as well as of approval of the superbly colored mountain scenes, sunsets, canons and of the wild game of the Rocky Mountains.

SUFFERS MENTAL TROUBLE

Carl F. Gauss Unbalanced as Result of Blow on Head.

Carl F. Gauss, formerly of this city, against whom an embezzlement charge was dismissed in Los Angeles, Cal., Monday, is discovered to have been suffering from mental trouble for several months. He will shortly undergo an operation for trephining the skull.

The injury is thought to have been caused by a severe blow on the head several years ago. Gauss' actions during the last several months have indicated his mental aberration, which, it is expected, will be cured by the intended operation.

DRUNKENNESS CURED.

It will be gratifying to all lovers of temperance and a happy home to know that a simple and a scientific cure for the whisky and beer habit has been discovered. Orrine never fails to cure drunkenness if it is used in accordance with the simple directions in the package, and the discoverers has so much confidence in the treatment that we are authorized to sell it with an absolute guarantee, to effect a cure or the money will be refunded.

It is in two forms: No. 1 to be given secretly, and No. 2, for those who wish to be cured; $1 each. Mothers and sisters have told us of husbands and brothers who since they were given Orrine, in many cases without their knowledge, have lost all desire for drink and we are glad to recommend the remedy. Mail orders filled. The Orrine Co., Washington, D. C., or D. Y. Butcher Drug Co., 131 E. Pike's Peak avenue.

WILL ADVERTISE EXTENSIVELY

Peyton Citizens Start Systematic Campaign for Upbuilding and Improving Town.

At an enthusiastic meeting of the newly-organized board of trade at Peyton on Monday night, plans for advertising the city were discussed, and a systematic campaign for the upbuilding and improvement of the town was started. Yesterday morning, 35 men and 20 teams began work on the streets of Peyton. The workers are divided into two gangs. One on the east side of the town is in charge of John Blue, and the other, which is working on the west side, is under the direction of F. E. Taylor. The work will be continued again today.

At the meeting Monday night it was decided to give a dance on March 15. A committee, consisting of Lee Carey, Bert Robinson, and R. H. Baker, was appointed to arrange for the affair.

A committee was also appointed to draw up by-laws for the board of trade. Stationery was ordered. A number of letters of congratulation on the formation of the board of trade, and communications wishing the city success in its boosting campaign, were received and read.

GENERAL ORDER NO. 4 ISSUED

Relates to Encampment of Department of Colorado and Wyoming, G. A. R.

Copies of general order No. 4, relating to the twenty-eighth annual encampment of the G. A. R., department of Colorado and Wyoming, which was issued by Department Commander Dana on February 20, have been printed and sent out among members and friends of the G. A. R. According to the order, the council of administration will meet at the headquarters in the Antlers hotel at 9:30 o'clock on the morning of May 14, where delegates will report with their credentials. The committee on credentials will report to the assistant adjutant general at headquarters at 1 o'clock in the afternoon of the same day. Special excursion rates have been granted by the Colorado Railway association over all railroads in the state.

Special attention is called to section six of the order, which relates to the wearing of the G. A. R. badge or emblem. Following is the section:

This department has received numerous complaints about comrades who were formerly members of G. A. R. posts, but for one reason and another have dropped out and are not now in good standing with the G. A. R., but continue to wear the emblems of the order. For the benefit of those who are not posted, I copy section 1796, page 936, of Mills' Annotated Statute of Colorado, at least that part of it applicable to the Grand Army of the Republic, which is as follows:

"Any person wilfully wearing any badge of the G. A. R. unless he shall be entitled to use and wear the same under the rules and regulations, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment in the county jail for a term not exceeding sixty days or by a fine not exceeding $20.00, or by both such fine and imprisonment."

Post commanders are especially requested to use their official positions to prevent such violations, and to furnish their local papers with copy of said law.

DR. DOWNS HEIR TO $10,000

Father of Well-Known Dentist of This City Leaves $50,000 to His Five Children.

Nathan A. Downs, of Riverhead, N. Y., father of Dr. Clinton A. Downs, a well-known dentist of this city, died at his home recently, leaving an estate valued at approximately $50,000, to be divided equally among his five children. Dr. Downs, who is the only local heir, will thus receive an inheritance of approximately $10,000.

The will, which was expected to be filed for probate in a New York court, is said to contain several sensational provisions, although this was denied last night by Dr. Downs.

The Ladies' Aid society of the German Lutheran church meets in the basement of the church, corner of Wahsatch avenue and Boulder street, this afternoon. Mrs. Kuehn will entertain.

Important to Carpet Buyers

Now is the time to buy---before prices are advanced

The prices of new carpets today in the Hibbard Store are probably lower than the same quality of goods can be sold for again in several years—unless we are specially fortunate. Carpet prices are going up—wool and labor especially. Makers are advancing all goods [illegible] per yard—and in some cases 20c per yard. These facts are being reflected in the retail market of Colorado Springs today, and will be more noticeable later on. We were fortunate in having provided great stocks before the rise in prices came, consequently we are at present offering you new spring carpets at much lower prices than you will pay elsewhere at this time—in fact, the prices now in effect here are close to present wholesale prices. It behooves all who have present or prospective carpet needs to "get busy" and supply their wants at the present prices. Besides having by far the largest and most complete stocks of Carpets in the city we call particular attention to the new things in

Good News for the Nevada Portland Gold Mining Company's Stockholders

THE COMPANY HAS ACQUIRED TWO MORE PATENTED CLAIMS OF TWENTY ACRES EACH. THESE CLAIMS SIDE LINE WITH THE TWO PATENTED CLAIMS ALREADY OWNED BY THE COMPANY AND HAVE THE SAME GREAT LEDGE THAT SHOWS PRACTICALLY PAY ORE AT GRASS ROOTS. THE COMPANY NOW OWNS EIGHTY ACRES OF VALUABLE PATENTED GROUND, SIXTY ACRES BY PRIOR LOCATION; 140 ACRES OF THE RICHEST MINERAL LAND IN THE GREAT ALUM CREEK MINING DISTRICT, ESMERELDA COUNTY, NEVADA.

WHAT OUR CLAIMS SHOW

THE LILLIAN CLAIM end lines with Bedford claim, which has shipped rich ore and now has much ore on the dump ready for shipment. It is believed the Bedford vein runs through the Lillian. A recent report from our mining engineer now on the ground says that the Lillian claim is a very valuable property. THAT HE HAS BEEN ABLE TO GET RICH PANNINGS FROM THIS CLAIM.

THE MOHAWK claim is just over the crest of the hill and about one thousand feet from the Butcher mine. On the Butcher mine there is a tunnel in about three hundred feet. This tunnel discloses a vein of wonderfully rich ore which runs from a hundred way up into the thousands. This mine has a large amount of ore corded on the dump ready for shipment or the putting in of a mill. The vein on the Butcher mine is supposed to run across the Mohawk claim, and the surface croppings show identically the same character of ore. The Mohawk claim extends across the end of the Red Chief claim and end lines with the Red Cloud claim. Each of these claims has shipping ore and the same character of ore that is found in the Butcher mine. As the Mohawk claim is situated between the Butcher mine and these claims it must have the same vein and ore bodies.

THE BLACK BOY claim joins the side line of the Mohawk claim and side lines with Red Chief No. 2, and is about six hundred feet from the tunnel on the Red Chief mine. The vein in this tunnel shows very rich ore. The discovery cut on the Black Boy exposed ore from which gold could be panned.

TENDERFOOT claims Nos. 1 and 2 (patented) are located about one thousand feet from the Black Boy and side lines with Independence claims Nos. 1 and 2. The leasers on the two latter claims began sacking ore at grass roots, the ore running from $50 to $248 per ton. The Independence vein crosses the two Tenderfoot claims and is very much larger on the Tenderfoot claims than on the Independence claims. This ledge where it crosses the two Tenderfoot claims is from seven to twenty-five feet wide and gave a return of $55.60 as the average value from six assays. Our mining engineer has just reported after examining this great vein, that he believes it a true fissure vein, and states that HE PANNED GOLD FROM EVERY SAMPLE TAKEN FROM THIS LEDGE.

THE GOLD KING NOS. 1 AND 2, THE PATENTED CLAIMS WHICH HAVE JUST BEEN PURCHASED, SIDE LINE WITH THE TENDERFOOT CLAIMS, GIVING US 80 ACRES OF PATENTED GROUND IN ONE BODY. The great vein on the Tenderfoot claims extends into Gold King claims. There are several other smaller veins on our patented ground. The new territory just acquired gives us a splendid tunnel site for the great vein. A discovery has been made of three old tunnels on the patented property just acquired. These tunnels are very old and were wholly overgrown with brush and covered with debris. The dumps indicate that considerable work was done, but as they have not been cleaned out so that they could be explored it is not known what they will reveal. There is a legend among the old settlers that very rich ore was at one time taken from this locality many years ago. These tunnels were evidently driven for the purpose of cutting the great vein on our patented ground, but for some reason were left when still a considerable distance from the vein. These tunnels, if they can be cleaned out and used, will be of great service in developing our property.

Thus it is seen that every acre of land owned by this company gives promise of valuable mineral, and that mineral is gold which is so oxidized that it can be treated in a stamp mill, thus saving the expense of shipping to a smelter and avoiding the smelter trust charges. This company has WOOD, WATER AND GOOD TRANSPORTATION FACILITIES in connection with the above very valuable properties.

WE HAVE MORE THAN MADE GOOD

In our prospectus issued ten days ago we said we expected to add two patented claims to our holdings. Some people smiled and said it is easy to "expect." We have more than realized our expectation because we have added three valuable claims to the holdings of the company in ten days, and we "expect" to add some some good properties in the near future. Now see whether our expectations are realized. We "expect" to make this one of the greatest, if not the greatest, company operating in Nevada, and we will do it.

THIS COMPANY HAS LIFE. IT HAS PUSH. IT HAS BUSINESS ABILITY BACK OF IT. IT KEEPS ITS PROMISES. IT IS ON THE SQUARE. IT IS GOING TO SUCCEED. IF YOU DON'T GET SOME SHARE IN IT YOU WILL MISS THE TIDE IN YOUR AFFAIRS WHICH LEADS TO FORTUNE.

You passed the two-cent stock up with a sneer. You talked "Wild Cat" while your neighbors were getting stock at three cents. You stood undecided while others walked off with the four-cent stock. You listened to the knocking of those who are trying to promote other companies while the wide awake fellows were taking the block of five-cent stock.

We Now Offer a Block of 20,000 Shares at Seven Cents

With the addition of these two patented claims the STOCK IS WORTH FIFTY CENTS A SHARE. Do you doubt it? Look what is asked by other companies that have far less valuable properties.

When this block of stock is gone the price will be advanced. Each block has gone more quickly as the price has advanced. This block of Seven-cent stock ought to be taken within a single day. We say as we have said, DON'T DELAY A MINUTE IF YOU WANT ANY OF THIS STOCK AT SEVEN CENTS.

You know it is cheap. You know it is going to advance. If you ever intend to get in on a Nevada proposition, do it now.

OPENS UP RICH STREAK

IMPORTANT STRIKE BY BRITISH-AMERICAN CO.

Assays Show Values of $750 in Gold to Ton in Streak of Ore Four Inches Wide.

Special to The Gazette.

CRIPPLE CREEK, March 5.—While stoping ore, the British-American Leasing company has opened up some of the richest ore ever found in the Cripple Creek district during the past week. A streak fully four inches wide has been encountered in the shoot that gives repeated assay returns of $750 in gold to the ton. The streak is full of free and cube gold and is considered one of the most important finds of the year.

The British-American company, at a depth of 565 feet through the Trail tunnel, has a shoot eight feet wide and 260 feet long, which is giving average returns in carload lots of $35 to $50. The value of the ore will now be materially increased with the finding of this extremely rich streak. The company is shipping out a car a day and is paying regular monthly dividends at the rate of $3,000. Work on the new shaft has been started, and it will be pushed to the 600-foot point just as rapidly as men can do it. The Dante, where this rich ore is found, is today one of the very best producing properties in the camp.

MACHINERY ON ROXANNA

David H. Moffat Pushing Development Work on Property.

Special to The Gazette.

CRIPPLE CREEK, March 5.—The Francesca Mining company, operating on the Roxanna property on Raven hill, adjoining the Doctor-Jack Pot, has installed machinery and has commenced active development work. The Roxanna property is controlled, as well as the operating leasing company, by David H. Moffat, the Denver multimillionaire railroader and banker. The Roxanna is located in a most fashionable neighborhood and, with proper development work, there is no reason why good ore bodies should not be found in this property.

ANSTIE SHOOT IS FOUND

Valuable Vein Discovered on Hoosier Property.

Special to The Gazette.

CRIPPLE CREEK, March 5.—Marsh and Hodges, leasing on the Hoosier, on Tenderfoot hill, have undoubtedly encountered the lost Anstie shoot, which seven or eight years ago produced for H. J. Anstie $170,000 from a big pocket of ore at an approximate depth of 600 feet. Marsh and Hodges have found a vein in place at 800 feet which is six feet wide and which will give returns of not less than $30 in gold to the ton in carload lots. It is the opinion of Manager John Hodges that the ore will give returns of from two to three ounces, and he expects that he will be able to take out as much ore from the Hoosier, now that he has found the true vein, as he has the past year in the Little Clara, which would mean $1,000,000.

SHIPMENTS FROM JACK POT

Two Cars Ore a Week Sent Out Averaging $50 to Ton.

Special to The Gazette.

CRIPPLE CREEK, March 5.—The Midland Leasing company, operating on the Jack Pot claim of the Doctor-Jack Pot Consolidated Mining company, is shipping a car to two cars of ore a week that will give average returns of $50. Recently a streak some two inches wide was found in one of the shoots which gives assay returns of 34 ounces in gold to the ton. This will increase the average value to five and six ounces, if not more. This leasing company has opened up ore between the 300 and 400-foot levels in four different places, but at the present time ore is being broken down in only two places. The Midland company is composed of railroad men, all of whom are employes of the Midland Terminal Railway company.

POINTER STOCK BOOMS

COMPANY IS ACTIVE AND ORE PROSPECTS GOOD.

Average Returns Run Two Ounces in Gold and Many Applications for Leases Are Received.

Special to The Gazette.

CRIPPLE CREEK, March 5.—Hull and associates, operating on the Pointer property, on the northwest slope of Gold hill, adjoining the rich Index company, are shipping about four to three cars of ore a month that give average returns of two ounces. These leasers are breaking ore about 18 inches wide. The Pointer company was recently reorganized and the stock was listed on the Colorado Springs Mining exchange. It is expected that the governing or listing committee will take action this week when the stock can be traded for on the exchange. It is expected that considerable work will be done on the Pointer property, which embraces 22 acres. This will either be done on company account or by lessee. There have recently been a number of applications for leases and the management is considering them.

There is every reason to believe that rich ore can be found in Pointer territory, as other nearby properties have during the past several months opened up new veins and shoots and several apparently run into Pointer ground.

GREAT ROOM WITHOUT COLUMNS

From the Chicago Chronicle.

The largest room without columns is said to be in a solid concrete building of the mosque at Lucknow, India. It is 162 feet long, 54 feet wide and 53 feet high. The timber fold was left a year for the concrete to set and the building, 122 years old, is still unimpaired.

STOCKS SLUMP HEAVILY

TONE WEAKENS WITHOUT ANY APPARENT CAUSE.

Atchison Most Conspicuous on Toboggan—Harriman Securities Selling Freely, but Hill Stocks Firm.

NEW YORK, March 5.—It looked for a time that stocks had made a stand against the violent selling pressure which has forced prices downward for some time past. But the early rally proved only a breathing spell and the selling movement [illegible] the day was in rather larger volume and more precipitate in its character than that of yesterday, with a panicky break at the last. The fall in prices was notable for an absence of news to account for it. The violence of the fall, however, gave rise to plenty of rumors of money difficulties to which the urgency of the unloading of stocks gave plausible color. No announcements of any embarrassments reached the public, however.

The enormous and unexplained selling of Atchison was the active influence in turning prices downward. It was asserted that a long standing confidence in an increase in Atchison dividend had been abandoned by a speculative party very heavily involved with the stock on that assumption. The stocks came out in blocks of thousands of shares, and the prices declined rapidly in spite of the execution of some very large buying orders which had the appearance of being made for support. The rest of the market ignored the Atchison selling for time and held its rally well.

The complexion of the market changed when the Harriman stocks began to come out freely again, and especially Southern Pacific. Rumors were current that a determination had been reached to reduce the dividend on that stock. Rumors of this kind were actively circulated throughout the day, but were entirely without official sanction or possible confirmation. The most effective influence in the early rally in the market was the large demand for the Hill stocks at advancing quotations.

Money was slightly easier, both on call and on time, but this was attributed largely to the effect of the stock market liquidation. Chicago reported the largest shipments of currency to the interior during February on record, and the impression was general that closer money conditions were in prospect.

The special weakness of stocks, which have been held in the Union Pacific treasury, gave an impression that the company's holdings were being liquidated. Atchison fell an extreme seven points, Southern Pacific and Louisville & Nashville five and the general list over three points.

The Hill stocks were the only ones in the list to save anything of the early gains.

Bonds were irregular. Total sales, par value, $2,110,000.

United States new 4s, registered, advanced ½, and the coupon one per cent, on call.

GRAIN MARKET FIRMER

WHEAT IS UNSTEADY, BUT CLOSES STRONG.

Lively Bidding in Corn on Bullish Report of Last Year's Consumption—Oats Active.

CHICAGO, March 5.—Weather in the southwest was reported as favorable for the growing crop of wheat, but several reports were received telling of damage by "green bugs." The demand during the last half of the session was less urgent and part of the early advance was lost. The market closed firm. May wheat opened unchanged to a shade lower at 75 1-2@5-8 to 5-8, sold at 75 1-2 and then advanced to 76 3-8@1-2, closing at 76.

Several leading commission houses were active bidders for corn early in the day, and the market showed considerable strength. The claim by a local statistician that last year's consumption of corn exceeded that of the previous year by 200,000,000 bushels was the chief cause of the lively buying. Realizing sales caused a reaction late in the day. May corn opened a shade lower to a shade higher at 46 1-2 to 5-8, advanced to 47@1-8 and then declined to 46 3-8, closing at 46 3-8@1-2.

Oats were in active demand all day and prices advanced sharply. The buying was based chiefly on a statement that only 34.5 per cent of last year's crop is still in the hands of farmers. May opened unchanged to 1-4 higher at 40 3-8 to 5-8, advanced to 41 1-2 and closed at 41 1-8@1-4. Local receipts, 206 cars.

Receipts of live hogs, which were lower than had been expected, caused a firm provision market. Local packers led in the buying and the selling was mainly by longs. At the close, May pork was up 20 at $16.32 1-2. Lard was 15@17 1-2 higher at $9.60@$9.62 1-2; ribs were 15 higher at $9.00.

LEGAL NOTICES.

To the Democrats of Colorado Springs, Colo.:

The official call for Democratic primaries and city convention, issued by Mr. R. P. Ady, as chairman, insofar as the [illegible] is incorrect. The apportionment was unanimously made for one delegate from each precinct and one additional delegate for each fifty votes, or major fraction thereof cast for Robert L. Hubbard for city attorney two years ago, giving the convention seventy-three delegates instead of forty-four, as provided for in Mr. Ady's call. The resolution under which Mr. Ady is acting was changed by the unanimous vote of the committee, although the actual correction was not made at the time with a pen. The representation as provided by the committee is as follows:

Ward.	Precinct.	Delegates
1	1	2
1	2	2
1	3	2
1	4	2
2	1	2
2	2	3

		73

This statement is made necessary because of the refusal of Mr. Ady to correct the call in accordance with the act of the action of the committee. Democrats will in each precinct elect delegates in accordance with the apportionment above and the committee under the rules and by-laws of the Democratic party will place the delegates so elected upon the temporary roll-call of the convention.

MONEY FOR ATHLETICS

Colorado College Athletic Association Raises $500.

The sum of $500 was raised yesterday morning for the benefit of the Athletic association of Colorado college at a mass meeting of the students. The report for the last year showed a balance in the bank of $5.38. The gate receipts for the season of 1906 were $1,065.60, and the assets were $2,787.64. There are unpaid athletic fees amounting to about $870, which leaves a deficit of $389. Among the contributors yesterday morning were the freshmen, sophomore, junior, senior and special classes of the college, President Slocum, Dean Parsons, Professor Gile, the Alumnae association, the Tiger board, Miss Loomis, the 1908 and 1909 annual boards.

DIRECTORS ALL RE-ELECTED

Animas Power and Water Company Holds Annual Meeting.

The directors of the Animas Power and Water company were all re-elected at the annual stockholders meeting of the organization in its office, in the Giddings block, yesterday noon. Routine business only was transacted at the meeting. The directors, who will meet shortly to elect officers for the ensuing year, are as follows: Henry Jameson, Paul H. Lieber, Paul H. White, John H. Holliday and John R. Love, all of Indianapolis, Ind.; S. Z. Mitchell and E. R. Coffin, both of New York, and Leonard E. Curtis and Henry Hine, both of this city. President Jameson and Secretary White will probably be re-elected.

The Julius Stein's fine tailored suits and costumes

THE smartest of the spring conceptions are represented in the correct attire of Julius Stein. There's a sound reason why every style garment can not please you. However, when one chooses from a display so varied as ours, there's sure to be some particular style that becomes the most fastidious. The Stein models have a world-wide reputation. They are known for their smartness in style, high-class workmanship and long service to the wearer. Let us show you a Stein model. You're sure to be pleased.

Another sample line of fine down comforters at 20 per cent off

DO YOU remember the sale of fine down comforters we had a short time ago? If you attended, you'll remember. Indeed, how many commented upon the excellent lot. Well, this lot not only equals, but exceeds, the first lot. They go on sale today and will continue until sold at 20 PER CENT OFF. The regular prices range from $15.00 to $30.00. Be sure to see them; they are beauties.

Webb's dew bleached towels

STRICTLY all-linen huck towels, bleached by the dew and sun on the bleach fields of Ireland; the old-fashioned way that is natural and harmless to the linens. They are free from the tint of chemicals that impair the values of towels bleached under present-day methods. It is the revival of the old-fashioned, home-bleached, linen towels that wear so commendably.

The agency for these towels in Colorado Springs has been given to us. All we ask is a fair trial. Their wear is guaranteed.
